Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 6/29/2006 have been fully considered but they are not persuasive. Applicant argues that the phosphor particles should be protruding from the both sides of the light emitting layer. However, the claim language of claim 7, does not say that the phosphor particles should be protruding from the both sides of light emitting layer. Furthermore, layer 202 in Fig. 4 of George et al. is an insulating layer.

Allowable Subject Matter

1. Claim 8, 9, 13 and 16 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 7, 10-12, 14, 15 and 17 rejected under 35 U.S.C. 102(e) as being anticipated by George et al. (2002/0195931).

Art Unit: 2826

Regarding Claims 7, 10, 14 and 17, George et al. disclose a thick film electroluminescent light emitting device having a plurality of layers where in Fig. 4, it is disclosed a first electrode layer 102, a light emitting layer 104 having phosphor particles 106 causing protrusions in the light emitting layer 104, at least one layer including a second electrode layer 204 where the first electrode layer and the at least one other layer conform to the protrusions in the light emitting layer 104.

Regarding Claim 11, in Fig 4 layer 206 of George et al. is a barium titanate layer.

Regarding Claim 12, in Fig. 4, the solvent used in the light emitting layer 104 and the barium titanate layer 206 are the same

Regarding Claim 15, the ratio between the binder material and the phosphor particles in the required area such that the phosphor particles 106 in Fig. 4 protrude from layer 104.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 2826

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
